In stating the Government's case United States District Attorney Dyer said that he would be able to prove that late in October, 1902, numerous complaints reached the Postmaster General against the Rialto Company, of which Major Hugh C. Dennis was president, and that Senator Burton knew of these complaints; that Senator Burton came to St. Louis on November 18, 1962, and had a conference with Thomas B. Harlan, attorney for the Rialto Company, with reference to the Senator's employment by the company; that the same day Harlan accompanied the Senator to Chicago, and while in that city a contract between Senator Burton and Harlan, the latter representing the Rialto Company, was entered into, whereby the Senator was to look after the interests of the Rialto Company in Washington, and that the compensation should be \$500 a month for a period of at least five months; that Harlan wired De nis of the contract and it was accepted; that it would be shown by Senator Burton's own letters that he told how he could get hold of information filed at Washington, and of his various visits to the Post-Office Department, with which he kept in close touch; that in a letter to Harlan he said: "I have tried to keep the Post-Office Department in good humor with Dennis, and I think I have succeeded" and in another letter: "You take care of things at that end of the line and I will take care of things at this end of the line"; that on December 15, 1992, Senator Burton took Major Dennis to the depart. ment and introduced him to the Fourth Assistant Postmaster General and Chief Post-Office Inspector Cochran (the latter was admitted by counsel for the Senator); Senator Burton received checks for \$500 each from the Rialto Company and indorsed and deposited them, and that he received \$500 in

on March 28, 1908, in the office of the company in St. Louis. The United States District Attorney, after making the above statement, read the section of the United States statutes which he interpreted as making it illegal and a crime for any Congressman to accept a fee in any case wherein the Government is directly or indirectly inter-

TAKING OF TESTIMONY. Immediately after the opening stateents of the attorneys for the ment and the defense, the taking of tes-

timony was begun. Mrs. Beile Evans of Albany, N. Y., was the first witness called in behalf of the Government. She identified a letter that she had written in October, 1902, to the Postmaster General, complaining of the Rialto Grain and Securities Company, and alleging that she had been swindled out of 230. Indentifications of like letters were made by Mrs. K. C. Haut of Albany, N. Y.; Mrs. Sara A. Warner of Pittsfield, Mass., and Arthur M. Allen of Staten Island, N. Y. . The letters were temporari

ly admitted as testimony. The Government has about twenty witnesses, among whom are William M. Commissioner of Indian Affairs; W. F. Cochran, Chief Post Office Inspector; Judge Charles W. Ray of Indian Territory. A number of Washington newspaper correspondents and officers of the Rialto Grain and Securities Company have been called by the Government,

It is expected that Senator Burton will have several officials of the Post Office Department at Washington to testify in his behalf, by whom he will expect to show that he did not use or attempt to use his tinfluence with the department for the Rialto Company. It is expected that Senator will take the stand in his own behalf during the progress of the trial. The attendance at the trial yesterday was large, but, aside from witnesses, there rere no women present. Senator Burton, attired in a Prince Albert coat, sat be tween his attorneys, Chester H. Krum, Fred W. Lehmann of St. Louis and John H. Bothwell of Sedalla and Charles Blood Smith of Topeka. Horace Dyer and Bert D. Nortoni are assisting the United States

District Attorney. Senator Burton, who is 45 years old, is of slender build and dark complexion. For years he has been a central figure in Kansas politics. Upon entering and leaving courtroom he shook hands with friends.

Senator Burton is the first member o Congress to be tried under the statute upon which his case is based. To avoid ambiguity, District Attorney

Dyer dismissed counts 5 and 6 of the indictment. In selecting a jury Cnester H. Krum bjected to the small number of jurors that had been summoned, saying that his client was entitled to a much larger panel. as he said, that, while it is true that the offense was only a misdemeanor, it carried with it, in case of conviction, forfeiture of his office, and forever barring him from holding office.

GERRYMANDERING TERRITORIES. Republicans Hope to Elect Two Congressmen in Proposed New State.

REPUBLIC SPECIAL Muscogee, L. T., March 22-When the House Committee on Territories agreed on the statehood bill for Oklahoma and Indian Territory it evidently tried, as nearly as possible, to bring in two of the Congressional Districts Republican and two Democratic. The bill as recommended provides that there shall be two Con-gressional Districts in Oklahoma and two gressional Districts in Oklahoma and two in Indian Territory. Oklahoma is divided by a line runing east and west. It is supposed that the Republicans will stand a show to carry the northern district. The southern part of Oklahoma including the new counties of Klowa. Communche and Caddo, is strongly Democratic.

In Indian Territory one Congressional District is made of the Choctaw and Chickasaw Nations. This will be overwhelmingly Democratic. The other district will include the Creek, Chrockee, Seminole and Osage Nations. In the Seminole and Creek Nations there will be a large negro vote, and on this the Republicans base their hope. The white population is Democratic.

There is an Indian element that has never voted, and they are a problematic quantity, politically. It is believed that the fullbloods, who have never voted, will be against any party that is in power, as they have persistently concessed the work

quantity, politically. It is believed that the fullbloods, who have never voted, will be against any party that is in power, as they have persistently opposed the work of the Government in alloting the lands, and the Democrats believe that it will only be necessary to hold this fact up before the Indian and he will vote against any one holding office.

It was generally believed that there would be five Congressional Districts, and if such had been the case the lines would necessarily have been very different. Already there are a good many who are trimming their sails to make their first congressional race, and there will be candidates galore when the time comes. In the northern congressional district of Indian Territory it will be a neck and neck race and the party that wins will do so by clever campaigning and compact organization. In the other district the Democratic nomination will be equivalent to an election.

DISFIGURED WITH ECZEMA

Under Physicians Five Months. Went from

Bad to Worse. **CURED BY CUTICURA**

Wonderful Change in One Night-In a Month Face Was Clean as Ever.

"I was troubled with eczema on the face for five months, during which time I was in the care of physicians. My face was in such a condition that I could not go out. It was going from had to worse and I gave up all hope, when a friend of mine highly recommended Cuticura Remedies. The first night after I washed my face with Cuticura Soap and used Cuticura Cintment and Cuticura Resoivent it changed wonderfully, and continuing the treatment it removed all scales and scabs. From that day I was able to go out, and in a month my face was as clean as ever." THOMAS J. SOTH, 317 Stagg St., Brook-

lyn, N. Y. The above letter was received in 1999 and he again writes us Feb. 19, 1903, "I have not been troubled with eczema

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scale, as in scalled bead; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in mlik erust, tetter and salt rheum-all demand a remedy of almost superhuman virtues to successfully cope with them. That Cutlcura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures of the civilized world.
